When Writing Advertisers Mention The Directory.

PREFACE

We take pleasure in presenting this, our first Directory of Hendersonville.

The City Directory is more than a list of residents with their occupations and addresses. It is a complete, accurate guide to the city, its people, institutions, organizations, etc., and becomes a permanent history of the people.

The Post Office Department at Washington has instructed all Postmasters to turn over all letters and packages incorrectly addressed to the Directory Department in the Post Office and there the address given in the latest issue of the city directory is placed upon them.

The Directory is a semi-public institution in which all people are interested:

First—Because there is a complete list of adult persons, the name, the business, the business location and the dwelling place, also the name of corporations and partnerships, giving name of corporate officials as well as members of firms.

Second—Because the classified portion of the Directory contains an alphabetical list of all articles made, bought or sold in Hendersonville. It is virtually a city catalog, for here you can find where to buy or sell most anything you want. It is like going to the market place, for everything is in view at a glance. It is the greatest buyer's guide in the world.

Third—Because the Miscellaneous Department tells much about the government of the city, county and state, as well as giving information regarding clubs, fraternal societies, etc.

The Directory is a useful and valuable utility, absolutely necessary to the commercial, professional, social, political, educational and religious progress of the day.

POPULATION.

The Directory statistics are relied upon as being accurate and dependable; these generally exceed the federal census for the reason that the Directory publisher as a rule does not confine himself to the corporate lines of the city, but covers the adjacent territory, suburban population generally figures in most directories as it does in the Hendersonville Directory. Population Hendersonville 5,842.

Thanking our patrons for their loyal support and co-operation, we are

Yours very truly,
 COMMERCIAL SERVICE COMPANY,
 ERNEST H. MILLER, Pres.

Advertise--Efficiency

¶China built a great wall to shut out new ideas and modern business methods out of the country and "withered within."

¶The individual or firm who does not advertise and practice efficiency in their business will reap China's reward.

¶"Efficiency" no business can possibly be run on modern methods without the use of the "City Directory."

¶"Advertise;" the City Directory is the only medium whereby all the people can be reached some of the time; it is a salesman that stays on the job.

¶Own and advertise in your City Directory.

THE House of Directories

P. O. Box 952

Asheville, N. C.

PRINTING

The Miller Press, Inc.

Asheville, N. C.

BINDING

Power of Advertising

¶The CITY DIRECTORY is the "power" that generates information for the buyer that he may know who deals in the products he is most interested in and wishes to purchase.

¶If YOUR business is not classified properly, with a display advertisement arranged to describe your particular line of business, how can "you" expect the buyer to trade with you, only by chance and a buyer seldom takes chances.

¶ADVERTISING is the foundation upon which all successful business are built. To be successful YOU must apply this to "your" own particular business.

¶ADVERTISING is the multiplication table pure and simple, when applied to any business, it is an "idea" multiplied.
